

Bio.SoilZ is Now a Member of IFOAM – Organics International

July 05, 2025

Dear Friends,

We are excited to announce that, **Bio.SoilZ Systems is now an official member of [IFOAM – Organics International](#)** the world's leading network for the organic agriculture movement.

About IFOAM – Organics International

IFOAM is a globally recognized organization that promotes organic farming, ecological sustainability and food sovereignty. It brings together farmers, researchers, policymakers and innovators from over 100 countries, all working toward transforming agriculture through principles of health, ecology, fairness and care.

What This Means for Bio.SoilZ

Our membership is a strong endorsement of our science-based approach to regenerative agriculture. It connects us to a global community of organic leaders, offering greater visibility, credibility and access to international forums, policy discussions and market development initiatives.

Enhanced Benefits for us and our Franchisees

- **Stronger Credibility:** Align with a globally respected movement for organic and sustainable farming.
- **Marketing Advantage:** Association with IFOAM strengthens our positioning in organic and eco-conscious markets.
- **Knowledge Exchange:** Access leading research, training materials and best practices in organic agriculture.
- **Networking:** Participate in events, workshops and conferences organized or endorsed by IFOAM.
- **International Market Access:** Open doors to new partnerships with IFOAM's global recognition.
- **Policy Influence:** Benefit from Bio.SoilZ's involvement in shaping organic standards and regulations.
- **Early Industry Insights:** Receive updates on trends, innovations and regulatory changes through IFOAM's communications.
- **Professional Development:** Access specialized training and educational resources for ongoing growth.
- **Customer Trust:** Reassure customers and stakeholders of your commitment to sustainability and transparency.
- **Sustainability Recognition:** Showcase leadership in a movement recognized worldwide by governments, NGOs and consumers.

Use of the IFOAM Emblem

As a member, we are authorized to use the IFOAM emblem in the following ways:

- Websites (not in connection with certification claims)
- Business cards
- Letterheads
- Informational and promotional materials

Important:

- Do not use the emblem on product packaging or labels, as it is not a certification mark.
- The emblem must always be used alongside the Bio.SoilZ logo, never alone.
- Use only the approved version of the logo exactly as provided—do not alter or modify it.
- Before using the emblem in any material, you must send it to us for approval.

You can view our membership listing on the official IFOAM directory here:

<https://directory.ifoam.bio/affiliates?utf8=√&filter=biosoilz&commit=Search>

Below, please find the emblem for your reference.

Note: Partial use of the emblem is not permitted. It should always appear in its complete form exactly as displayed below.

Have a great weekend!

With best regards,
Bio.SoilZ Team
